

article upload can go anywhere tbh doesnt really matter so long as it makes sense idgaf

prepare

switch to 'present' mode

SEARCH BAR

cute little magnifying glass

tag filter dropdown

queued articles

'clear' button

Article

V^ sort by stats

queue should persist accross page reload

maybe have this expand or maximize or smth

Title

URL

^+ sign to add to queue

description

title

sign

drag up/down

desc

tags

button to route to individual article page

present

mode

prev

BBBBGGGGG article

next

arrow keys or space should move thing
